

SUVETHA M S

suvethamanikandan23@gmail.com — +91 9751612833 — Villupuram, Tamil Nadu

Profile

Software Developer with hands-on experience at UST supporting a large-scale enterprise network migration and desktop/asset operations for a Fortune-level BFSI account. Strong foundation in C++, Java, Python, cloud technologies, troubleshooting, automation, and stakeholder coordination. Passionate about building scalable software solutions and continuously learning modern technologies.

Experience

UST, Trivandrum

Production Support – Muthoot Account

Nov 2025 – Present

- Served as SME for the Muthoot SD-WAN migration from Citrix to FortiClient across 4,000+ branches by guiding field engineers and resolving network issues remotely.
- Transitioned to desktop support and asset management after migration; resolved asset distribution discrepancies across 4,000+ branches.
- Coordinated with asset vendors to track dispatches and ensure timely delivery and reconciliation of branch hardware.
- Used endpoint management tools to remotely troubleshoot branch PCs and resolve end-user issues efficiently.

UST, Chennai

Trainee – Software Development

Mar 2025 – Nov 2025

- Completed training in C++, Java, and core software engineering concepts.
- Assisted in debugging, testing, feature enhancements, code reviews, and technical documentation.

Projects

GW-BASIC Interpreter in C++ (64-bit)

C++

- Developed the parser module using Recursive Descent Parsing to construct an Abstract Syntax Tree (AST), supporting expressions, control structures, and system commands with modular architecture.

Gesture Recognition with Voice-Based Assistant for the Visually Impaired

Python, OpenCV, Machine Learning

- Developed a vision-based gesture recognition system that interprets hand/body gestures and performs device actions.
- Awarded at Inter-College Codefest 2023.

Healthcare Mobile Application

Flutter, Dart, Firebase

- Developed an Android healthcare application with Firebase real-time database integration during internship.

Stock Management System

Python Django, HTML/CSS, SQL

- Built a supermarket stock and sales management system capable of generating sales and return reports.

Technical Skills

Programming Languages: C++, C, Java, Python, HTML/CSS, SQL, Flutter (Dart)

Tools: Git, Visual Studio, Eclipse, Jira

Technologies: AWS, Software Testing, SD-WAN, FortiClient, Network Troubleshooting, Endpoint Management, Asset Management

Education

IFET College of Engineering, Villupuram

2020 – 2024

B.E. Computer Science & Engineering

CGPA: 8.05

Saraswathi Matric Higher Secondary School

2019 – 2020

Higher Secondary

58.35%

Sacred Heart Convent AI Higher Secondary School

2017 – 2018

SSLC

71.4%

Certifications & Training

- **AWS Certified Cloud Practitioner** – AWS Training and Certification (June 2024)
- **Web Development** – Inplant Training, NexGen Technology

- **Selenium Automation using Java** – Inplant Training, Arise Infomatics; automated testing on Facebook, Instagram, Amazon, and Flipkart
- **Android Development (Flutter)** – Internship, Twilight IT Solution; developed a healthcare application with Firebase integration
